

Nota para el ofrecimiento

Hay grandes grupos de minas de hierro, a 37 K^o. de la costa del N. de España, y se han hecho estudios de p. c., embarcadero, y puerto, para una explotación importante. —

Los minerales son hematitas parda, y rojas, de una ley de 54 a 62 p^o%, de hierro. — Están a la vista, descubiertos, muchos miles de toneladas. —

Se desean vender esos grupos de minas, y si el Sr. N. conviniera en adquisición, podría mandar ingenieros que los estudien, a quienes se facilitarían las memorias y planos, para que pudieran formar cabal juicio del negocio. —

Letter from a friend

My dear friend
I have just received your letter of the 27th and
am glad to hear from you. I am well and hope
these few lines will find you the same.
I have not much news to write at present.
I am still in the same place and
do not expect to move for some time.
I have been thinking of writing to you
for some time but have been so busy
that I could not find time. I have
been very busy with my work and
with the children. I have not
time to write you as much as I
should. I have been very busy
with my work and with the children.
I have not time to write you as
much as I should. I have been
very busy with my work and with
the children. I have not time to
write you as much as I should.
