***El libro de bolsillo:***

**Viejas historias de Castilla la Vieja,**  
Miguel Delibes. Two selections by Delibes. The first (110 pp.) contains a series of sketches of life in a small Castilian town. Written in a rich, precise prose, the sketches detail the everyday happenings in a rural world, as related from a sympathetic distance. The second (42 pp.) presents a delightful dialogue between "el Barbas" and "el Cazador," Delibes himself, on their experiences as hunters.

An Alianza publication, #2242, paper, 152 pp., \$1.20.
